

Are your CPE Points up to date?

Get your CPE points online today!

At Cathay Herbal we encourage you to attend ongoing face-to-face instruction and professional development, we understand however it can be difficult and expensive to take a few days away from your practice and travel to a location for training.

To support your ongoing professional development we have developed our first series of courses available online or by email for T.C.M. in Australia.

Each course is a stand-alone lesson, which consists of a lecture and questionnaire. Choose from the courses below and contact us by phone or email to enrol.

After your enrolment the **course material can be:**

- Downloaded from our website
- Emailed to you.
- Or posted by snail mail as another option.

Most lectures only require a day or two to complete. After receiving your lecture notes and questionnaire you have 6 months in which to complete the module in order to receive CPE points. After carefully reading the material (10 - 40 pages per lecture) you can complete the test at the end, (approximately 3-5 pages) and **submit them via email, fax or mail** for marking.

Should anyone fail on their first attempt (marking including in lecture cost) they are able to reattempt the questionnaire and resubmit it for remarking, (at a cost of \$25 per additional attempt.)

Course code		Hours	Cost
CPE Lecture RD1	Respiratory Disorders	8	\$79
